Auto Thief Is Out Of Funds; Owner Is Glad

ST. MARYS—(Special)—W. E. Dobbins, Greendale, Ind., is congratulating himself because the person who stole his automobile was broke. The auto has just been recovered here at garage where it had been placed by the thief when he ran out of funds to keep it operating. Dobbins paid the storage charges and took it away with him. He was thankful that he got here before the thief raised the necessary money to get the car out of "lock."

BIRDMEN ARRIVE AT NEW YORK

Escorted On Trip From Boston By Air Fleet

GO TO CAPITOL TUESDAY

May Be Welcomed To Washington By President

(BULLETIN)

NEW YORK—(By Associated Press)—The round-the-world fliers passed over City Island east of the Bronx at 3:04 p. m. eastern daylight time.

Swinging across the Bronx the airmen proceeded down Manhattan Island towards the Battery. Scores of thousands of New Yorkers standing on housetops, on the sidewalks and in parks watched the squadron as it sped south.

BOSTON AIRPORT

—(By Associated Press)—The army's world fliers took off from the airport here today at 12:02:30 p. m., beginning the series of jumps that will complete at Seattle the circumnavigation of the world. Weather conditions were good. They expected to arrive at Mitchell Field at 2 p. m.

The flagship Chicago with Flight Commander Lieutenant Lowell H. Smith in the pilot seat, was first away. With the new wheeled undercarriage that replaced pontoons here yesterday, the Chicago sped down the long shank of the "T" runway of the airport, and had gained the air and flying speed at 12:02:30.

Lieutenant Smith was off with a wave of the hand, forty-three seconds in advance of the Boston II, commanded by Lieutenant Leigh Wade. The New Orleans came down the runway to take the air at 12:03:43.

The world cruisers flew off for New York, their course taking them again over Boston common, where they assumed the formation for the 225 mile flight.

Major General Mason M. Patrick, flying the first of three seaplanes, was up and away a few moments later and when the world fliers returned over the airport after circling the city proper, he was up to join them.

In the wake of the world cruisers was an escorting fleet of three de Havillands, two Martin bombers and a navy de Havilland plane, piloted by Lieutenant H. A. Brown.

This escort by the navy was intended as its last act in its participation that had taken the navy ships and men with the way around the world with the men of the army.

The get-away from the airport here by the world cruisers was accomplished quickly. Returning from a box luncheon, Lieutenant Smith and his fellow fliers clambered into their cockpits, got the word from General Patrick that all was ready, taxied out and were off.

They passed over Boston again and then took up the flight to New York, via Providence and along the Connecticut shore of Long Island Sound.

LEAVE TOMORROW

It is planned to stop in New York only overnight and to ride south the flight to Washington tomorrow. The exact route to be followed to Seattle is still undetermined but that the world cruisers are to make stops at Dayton, Ohio; St. Joseph, Mo., and Omaha, Neb., has been definitely decided.

While planning cautiously for every eventuality, Lieutenant H. Smith, the flight commander, said today that all should be "plain sailing and the flight accomplished within ten days."

MAY BE MET BY COOLIDGE

WASHINGTON—(By Associated Press)—President Coolidge hopes to go to Bolling field here tomorrow to welcome the around-the-world fliers.

Such an arrangement depends upon the arrival of the airmen's arrival, about which the president today made special inquiry. He also asked for re-

(Continued on Page Two)

ENROLLMENT IN SCHOOLS NEARS 7,000

12,000 Students Thru County Return On First Day

LARGE GAIN IS EXPECTED

Girls Outnumber Boys, Most Schools Report

Nearly 12,000 children connected with the city, county and parochial schools started the 1924-25 term of school in Allen-co Monday.

Vacation season was at an end and the youths were facing hard work with their studies. In all schools a splendid spirit was observed and a good school year is predicted by those in charge.

In the city schools approximately 7,000 were enrolled for the first day. There are always late comers and it is believed that the registration of 7,199 seen when the schools closed in June will be exceeded by a good margin.

ENROLLMENT

Unofficial figures for the first day are as follows:

School	Boys	Girls	Total
Central	753	795	1,548
South	518	536	1,054
Lowell	196	214	410
Longfellow	75	72	147
Franklin	104	104	208
Irving	258	221	479
Faurot	91	86	177
Garfield	44	46	90
McKinley	155	122	277
Whittier			701
Lincoln	293	297	590
Washington	265	294	559
Horace Mann	166	176	342
Richardson	75	71	146
Total	2,993	3,735	6,728

LARGE CLASS

A larger senior class than last year is indicated by the first enrollment figures from both high schools. Other classes are expected to lose but few students over the vacation period.

There were no formalities connected with the opening of schools here. In the individual class rooms the teachers were becoming acquainted with the pupils and information was being obtained. Books and lesson subjects were also announced.

Little crowding is expected this year but there may be cases where more room will have to be provided. These details will be ironed out at once Superintendent R. E. Offenbauer said.

The Kerns resided at the corner of Pierce and Market-sts. for 22 years and shortly following her husband's death, Mrs. Kerr moved to the Marquette-apts. 540 W. Market-st., where she has resided alone.

She leaves two daughters, Mrs. Mary Workman, Wendell-av and Mrs. Ruth Kerr Noonan, 1003 W. Market-st.; also three grandchildren, Jennie, Bella and Helen Hyter and Virginia Workman. Four sisters, Mrs. L. H. Hume and Mrs. Elizabeth Bates, of Lima, Mrs. Ed Homan, of Arpahe, Okla., and Mrs. C. K. Crall of McGuffey, also survive.

Funeral services will be conducted at her late residence 540 W. Market-st., Wednesday at 2:30 p. m. Rev. Samuel Heucker, pastor of Market-at Presbyterian church, will officiate. Interment will be in Woodlawn cemetery.

UNITED SPANISH WAR VETERANS IN SESSION

MICHIGAN CITY, Ind. — Addresses by Harry S. New, postmaster general; Mayor W. F. C. Doll of Michigan City and Representative A. J. Hickey of Indiana were scheduled for today at the opening business session of the twenty-sixth national encampment of United Spanish War Veterans.

The convention was formally opened yesterday when registration of delegates was completed and memorial services held.

Chief interest in the convention centers in the election of officers to be held later in the week, when some of the most spirited contests in the history of the organization are expected.

HIS MIND'S NOT ON HIS WORK

Today's the big day and Young America is back on the job. Here he is, typifying hundreds of thousands of boys and girls who return to school after a glorious vacation. It's a serious job, this business of school, and in a week or so Young America will be down to work in earnest. But just yet his thoughts are elsewhere. Well, vacation had to end sometime.

MRS. KERR DIES AT HOSPITAL

Illness Of Six Weeks Proves Fatal To Lima Woman

Mrs. Belle Pierson Kerr, 66, widow of the late John B. Kerr, died Sunday noon at St. Rita's hospital after an illness from a complication of diseases. Mrs. Kerr became ill six weeks ago and when her condition became serious ten days ago, she was removed to the hospital.

Mrs. Kerr was born in Lima, December 26, 1857, the daughter of Mr. and Mrs. Cyrus Pierson, pioneer settlers of Allen-co and spent her entire life in this vicinity. In 1891 she was married to John B. Kerr, prominent oil operator, who preceded her in death February 5, 1922.

The Kerrs resided at the corner of Pierce and Market-sts. for 22 years and shortly following her husband's death, Mrs. Kerr moved to the Marquette-apts. 540 W. Market-st., where she has resided alone.

She leaves two daughters, Mrs. Mary Workman, Wendell-av and Mrs. Ruth Kerr Noonan, 1003 W. Market-st.; also three grandchildren, Jennie, Bella and Helen Hyter and Virginia Workman. Four sisters, Mrs. L. H. Hume and Mrs. Elizabeth Bates, of Lima, Mrs. Ed Homan, of Arpahe, Okla., and Mrs. C. K. Crall of McGuffey, also survive.

Funeral services will be conducted at her late residence 540 W. Market-st., Wednesday at 2:30 p. m. Rev. Samuel Heucker, pastor of Market-at Presbyterian church, will officiate. Interment will be in Woodlawn cemetery.

SIX PERSONS HURT IN ACCIDENT IN KENTON-ROD

Two Are Seriously Injured, Reports Indicate

AUTOMOBILES COLLIDE

X-Ray Examination To Be Made By Physician

Two persons were seriously injured and four others slightly hurt Sunday in an automobile accident on the Dixie highway, five miles north of Lima.

Mrs. J. W. Ruebush, 1425 Rice-av., and Elizabeth Parrott, 13-year-old daughter of Mr. and Mrs. Emanuel Parrott, 903 N. Cole-st., are in City hospital suffering from severe cuts and bruises and probable internal injuries. Mrs. Ruebush's pelvic bone is broken in two places. Her condition was reported critical Monday noon. An X-ray examination will be made Monday to determine the extent of Elizabeth's injuries.

The less seriously injured, J. W. Ruebush, husband of Mrs. Ruebush, Mrs. Emanuel Parrott and children, Elizabeth, Alice and Victor, are confined to their homes with cuts and bruises.

The accident occurred Sunday noon when a Ford touring car in which Mr. and Mrs. Ruebush, Mrs. Parrott and children, Elizabeth, Alice and Victor, were riding collided with a large touring car driven by J. S. Otto, of Lima, at the intersection of the Blue Lick-rd and Dixie Highway. According to information, Mrs. Parrott was driving the Ford east on the side road while the other machine, driven by J. S. Otto, of Lima, was going north on the Dixie highway. When Mrs. Parrott reached the main highway she turned directly in front of Otto's machine. Both cars were hurled into the ditch while occupants were thrown in every direction. Otto and two companions escaped without injury.

Bowersack's ambulance was called and rushed Mrs. Ruebush and Elizabeth Parrott to the City hospital. Mrs. Parrott and daughter, Alice, were taken to their home by Dr. Burt Hibbard. Both cars were totally demolished.

Sent To Prison For Biting Wife

CLEVELAND — (By United Press)—For biting off the end of his wife's nose, Frank Iacovelle today was sentenced to ten years in the penitentiary.

He pleaded guilty before Judge George P. Baer.

"What made you angry?" asked the judge.

The prisoner must have misunderstood the word "angry."

"I wasn't hungry, judge. I wasn't hungry, but she made me mad," he replied.

2 PERSONS SHOT TO DEATH

New York Husband And Bride Slain In Home

NEW YORK — (By United Press)—In the heart of "little Italy" a honeymoon couple, Carmello Gluca and his 14-year-old bride, were shot to death as they slept today, their bodies riddled with bullets.

Giuseppe Gandolfo, the bride's father, is missing.

The bedroom in which a brother of the girl discovered the tragedy bore mute evidence of the slayers' fury. After pumping many bullets into the bodies of the victims, the murderer had torn from a wall frame a picture of the couple and mutilated it.

The girl's body was wrapped tightly in a quilt, that of the bridegroom lay sprawled on the bed, the head almost unrecognizable from bullet wounds.

Gluca had taken pretty Margareta Gandolfo to wife despite her father's displeasure, according to excited inhabitants of the Italian quarter, who swarmed about the scene of the crime until police were called out to hold them in check.

HAMILTON MAN ADMITS OWNERSHIP OF LIQUOR

51 Quarts Of Canadian Beverage Held By Authorities

COMPANION DENIES GUILT

Other Cases Are Disposed Of In Criminal Court

Two men, believed by police to be professional booze-runners, were arrested at 3:30 a. m. Monday on the Findlay-rd near the D. T. & I. railroad, and were taken to police headquarters along with a cargo of alleged Canadian Imperial whisky which they are said to have transported into the state from Michigan.

Mike Riegert, 22, of 145 W. Third-st., Hamilton, O., claimed ownership of fifty-one quarts of the whisky which were found packed in gunny-sacks and loaded in a compartment in the rear of the Ford coupe in which the men were travelling. A. L. Mountel, 22, of 1925 Tipton-av., Norwood, O., disclaimed all knowledge of the liquor, and told police he was accompanying Riegert on what he thought was a pleasure trip.

Both were arraigned in criminal court Monday morning on double charges of possessing and transporting illicit liquor, which were preferred by the state and by the police department.

Riegert pleaded guilty to both charges and asserted that both the automobile and the whisky were his property. He was remanded to jail under \$1,500 bond to await final disposition of the case, which was taken under advisement by Judge Nash Pollak. Mountel pleaded not guilty and was jailed in default of a \$500 bond, to await trial at 1:30 p. m. Tuesday, Sept. 23.

The men were arrested following an investigation by Officers James and Good of an anonymous report about 2 a. m. that two men were approaching the city with a load of booze.

They are said to have attempted to hire a farmer to tow their automobile to the nearest filling station where they could refill their empty gasoline tank, offering to pay him off with whisky. The farmer refused and phoned police.

When the officers arrived they found the machine near the D. T. & I. railroad. It had been towed as far as the railroad by another automobile, the owner of which disclaimed any knowledge of the contraband cargo which was cached in the car.

ONE FINED

Robert Gill, 55, 183 S. Jackson-st., who was arrested at midnight Saturday charged with possessing liquor, and his wife, Lenora Gill, 49, who was taken after, police say, she attempted to destroy the "evidence" by dumping the pitcher in which it was contained, were arraigned in police court Monday. Gill was fined \$250 and costs on his plea of guilty. His wife pleaded not guilty, and is being held for trial.

A quart jar partly filled with liquor, a pitcher and several wine glasses that had contained the stuff were found at the Gill home.

David Orwig, 66, who was arrested Saturday when, police assert, he was caught in the act of selling wine which contained a large percentage of alcohol, was arraigned, pleaded not guilty to selling the stuff, and was released on \$500 bond to appear for trial Wednesday September 24.

Nearly five quarts of wine, along with nearly \$150 in cash, a large diamond and other valuable were found in Orwig's possession when his home at 1088 N. Jefferson-st., was raided.

Four alleged drunkards, Lewis Schlick, 125 E. McKibben-st.; Bert Craig, 351 Atlantic-av.; Frank Shea, 584 N. McDonel-st.; and L. C. Dickover, of Arcade, Ind., were fined \$15 and costs each when they pleaded guilty to imbibing too freely of the fiery liquid.

600 PASTORS EXPECTED AT M. E. CONFERENCE

COSHOCTON — Nearly 600 pastors are expected here tomorrow at the opening of the thirteenth annual Northeast Ohio Conference of the Methodist Episcopal church, said to be the largest of the 1,600 conferences in the nation. Morning and afternoon sessions will continue throughout the week, with assignments of pastors being made at close of the conference.

BOY HELD BY POLICE

DAYTON — Rollie Woodward, 16, was being held by police today following his arrest early this morning after he is alleged to have broken a window of the Rogers Jewelry Co. store and scooped up jewelry worth approximately \$1,000.

LIMA GETS M. E. CONFERENCE

1925 Church Session To Be Held Here, Members Decide

ORDINATION SERVICE HELD

Bishop Henderson Addresses Two Large Crowds Sunday

Annual meeting of the Western Ohio Conference of Methodist churches will be held in Lima next week.

This was decided by delegates at Ada, Monday when the matter came up for discussion. Rev. C. A. Rowand, of Trinity church, and Rev. Dan Kelly, of Grace church, led the fight for Lima and were supported by an almost unanimous vote.

Hicksville was the only contender for the honor of having the big conference and while the place was given attention it was decided to come to Lima because of the added facilities offered.

Bishop Theodore S. Henderson delivered two masterful addresses Sunday in Lehr auditorium. Crowds, estimated at 4,000 persons, filled every seat at the sessions and made overflow meetings necessary.

His talks were based on the Christian ideal of service and he called upon his hearers to be humble and do every necessary duty in fulfilling the spirit of Christianity. He talked in the morning and the afternoon.

SERVICE PLEDGE

The afternoon address was particularly for the young people of the church. At its close nearly 100 pledged themselves to a life of activity for the church.

During the afternoon session two deaconesses, 14 elders and 12 deacons were ordained. They were: deaconesses, Miss Lenore M. Drans, Hamilton; Miss Lily Randall, Hyde Park; elders, C. E. Cramer, Lafayette; Nell N. Peterson, Ada; Walter C. Peters, New Vienna; Fred Riley, Cincinnati; Leroy R. Wilkin, Pioneer; E. C. Wiley, Edward B. Thomas, J. A. Troke, Larue; Earl A. Harger, Rawson; Donald F. Wakeman, Forest; M. Moon, Lynchburg; Harry T. Lyon, Winchester; Lewisburg, T. T. Brumbaugh, Delaware; deacons: J. D. Shell-hass, H. E. Elliott, Okeana; O. B. Cole, Mt. Washington; A. A. Armbrust, Cincinnati; Robert M. Morris, Waldo; Charles A. Bowers, Okeana; Homer M. Bucholz, T. T. Brumbaugh, Albert E. Sothers, Roger J. Terrell, and J. D. Wiant of Medway.

On Sunday night the closing evangelistic service was held. The Rev. F. Satona Hanna preaching. On Sunday morning a love feast was observed with Rev. F. E. Reading of Toledo as leader. Pastors from visiting churches filled pulpits in Ada churches on Sunday morning and evening.

On Saturday night a special temperance program was held. Speakers were Mrs. Florence D. Richards, president of the state W. C. T. U., Superintendent T. M. Hare of the Ohio Anti-Saloon league, and Rev. Clarence True Wilson, secretary of the board of temperance and morals of the church.

Monday will be devoted almost entirely to conference business. It is believed that the conference will not close until Monday evening, as much business remains unfinished. According to officials of the conference, the list of assignments of pastors will not be available until late Monday.

CRIME INCREASE IS EVIDENT

Prevention, Not Prosecution, Is Best, Long Says

DIVORCES ON INCREASE

Rotarians Asked To Assist In Eliminating Causes

Number of inmates in the Ohio penitentiary has increased from 1,781 in 1915 to 2,877 on June 3, 1924. Rotarians were told at the noon day luncheon at the Norval hotel by C. W. Long, assistant prosecuting attorney, in a short talk on "Causes of Crime and Value of Prevention."

"About 250 of the number of men in state prison in Ohio are in the idle house," Long said. The condition is bad for the men and worse for the state.

"Cost to Allen-co tax payers for grand jury probes amounted to \$410.70 in April, when the jury held two sessions. "Eleven men sent to the penitentiary, reformatory and workhouse as result of indictments returned by the jury, will cost the state and county more than \$2,000 to maintain."

WORKERS NEEDED

"In directing efforts of various civic and social agencies toward the prevention of crime rather than to its prosecution much would be accomplished toward diminishing crime," Long declared.

Divorce, Long declared, is one of the contributory causes of crime. When, on a crime, he said, separation of parents frequently breaks up home life for children and starts them astray. Co-operation of luncheon clubs in Lima, with organizations like the Salvation Army, churches, Y. M. C. A., with police, sheriff's office, courts and the prosecutors, in study of crime causes and prevention, Long stated, would lessen the cost of crime to the taxpayer, and largely eliminate civic sore spots which cause crime.

Long declared there is no need to fine the citizen who refuses to vote. He punishes himself, by his own neglect.

PARIS WALLS TO DISAPPEAR

Green Bordered Boulevard is Dream of Officials

PARIS—(By Associated Press)—Paris' dream of a great, green-bordered boulevard around the city is coming true. It may be a few years before the plan is completed but the work of tearing down the obsolete fortifications is half done and the first sale of land will take place soon so apartment houses may be erected there.

There are 1,100 acres of land in all in the 92 forts and defensive walls and the moats surrounding them. Three other forts will be kept, partly as a relic of old Paris. Half of the land will be given over to military establishments and the remainder will be sites for government buildings, schools, the city's proposed low-priced apartments to relieve the housing shortage and the little "University City," where students, particularly poor ones, may live cheaply under good conditions.

There will be sold only 170 acres in small lots but from these sales the city expects to be reimbursed for the cost of razing the walls of Paris. For the first time the limit on the height of buildings will be limited so as to get the most housing facilities possible out of this land. The buyers also will be required to erect apartment houses immediately.

FOUR BILLION MATCHES USED DAILY IN U. S.

PETERBORO, N. H. — The United States uses more than 1,500,000,000 matches made out of wood every year. (This is about 37 matches a day for every man, woman and child in the country, based on a population of 110,000,000.) Recent statistics from Europe have placed the per capita consumption there at 14 matches a day. The world output costs \$200,000,000 and reaches a total of \$4,675,000,000 matches a year. Eight million tons of paper are being used in the United States every year. These are some of the interesting statements made by Charles Lathrop, Tree Association of Washington in a speech tonight before the New England Forestry Conference which continues thru Tuesday and Wednesday.

Mr. Lathrop pointed out that this is the time to "sell forestry" to the people of the United States. He urged the conference to get down to facts the public could understand, saying that way to get the American people interested in this vital conservation problem of where wood came from was to talk to them in terms that they could understand.

CAPITOL BUILDINGS ARE VALUED AT \$25,000,000

WASHINGTON — The Capitol building of the United States, which houses both branches of Congress and the Supreme Court, has been valued at \$25,000,000. This figure represents actual cost. Were current local real estate values taken in, it would be much higher.

FRENCH PACIFIST HAMBURG

HAMBURG — Henri Barbusse, French writer, pacifist and communist of the drawing room variety, addressed in his native country a conference of pacifists recently and was well received. The address was given to the audience by a Frenchman.

WORLD FLYERS WELCOMED TO U. S. AS MANY THOUSANDS CHEER

With a "Hello, America" broadcast to millions, the army "round-the-world flyers answered the greetings of the thousands who lined the shore, swarmed the air and filled the bay, at their arrival at Boston. It was their first stop on the mainland of the country which they left more than five months ago to undertake the hazardous task of becoming the Magellans of the air. They succeeded in face of obstacles that no others have been able to overcome. So it was with light heart that they flew over the city with Lieutenant Lowell H. Smith in the lead with his plane, the "Chicago," followed by Lieutenants Erik Nelson in the "New Orleans" and Leigh Wade, who rejoined his companions at Piton, in the "Boston II."

MONEY IS SPENT BY HUSBAND

Wife Seeks Divorce Charging Neglect And Non Support

When Mrs. Naomi Mayland, married James Edward Mayland, in Capetown, Canada, Jan. 22, 1923, she entrusted her fortune of \$3,000 to him, she related in a divorce petition filed in common pleas court.

He promised to take good care of the money and invest it in some good paying business. The young bride believed that her husband was a wonderful man and could do anything, gave him her capital willingly. She believed him implicitly when he assured her it was all right, and that he would more than double the amount in no time at all.

But he did not invest it, she asserts, and with the wasting of their brief honeymoon, she found that her fortune had been wasted in drinking, riotous living, and gambling by her mate. The two parted June 3, 1923, after Mrs. Mayland discovered where her money had gone.

In the petition she asks a decree on grounds of neglect and non-support. She also asks to be allowed to resume her former name Naomi Lewis. Mayland is said to be residing in Ottawa, Canada, at present.

HALF MILLION IS LOST IN FIRE

Flames Follow Explosion In Elevator At Buffalo

BUFFALO — (By Associated Press) — Fire which followed an explosion in the shaft of the Exchange Elevator at Slip One on the Erie basin, doomed the structure this afternoon. Practically every available piece of fire apparatus in the city and two fire-boats were battling the flames.

Three men caught on the top floor when the explosion occurred, said 150 feet to safety on a belt in the canal tower, a box-like structure on the side of the elevator. The elevator had a capacity of 500,000 bushels, and was about one-third filled with wheat and some oats. Early estimates placed the damage at \$500,000.

Flames from the explosion, believed to have been caused by dust and the breaking of a belt, spread rapidly and before the first fire companies had arrived, the fire was beyond control. The lake freighter, Wissahickon, in a nearby slip, was towed to safety as were several smaller craft. North of the elevator, three tanks with 200 tons of grain each and the Grand Trunk freight house were in the path of the flames.

BRUISES CALLED CURE FOR NERVOUS TROUBLE

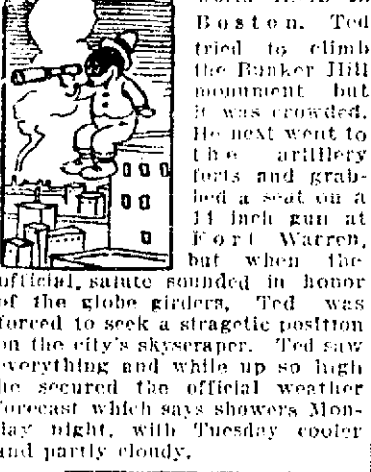

BADEN-BADEN — Stone bruises on the feet are a sure cure for nervous disorders, is the opinion of a German specialist who sets many of his patients walking in their bare feet, over the patients' feet the quicker will be the cure in the opinion of this expert on nervous disorders. He holds that many nervous persons are unable to take their minds off troubles which they brood over constantly and have found over a long term of years that it is not possible for many patients to worry about other troubles if they have bruised and swollen feet.

FIRMAMENT REPRODUCED IN BIG GERMAN MUSEUM

MUNICH — The "starry canopy of Heaven," with every constellation known to man meeting in its celestial orbits, has been reproduced within the cupola of the newly erected German museum by means of a large orrery. The orrery is made of brass and will be used to reconstruct the intricate movements of the heavenly bodies.

TED IS BACK; SHOWERS DUE

Ted is back on the job after an extended vacation. Ted has been busy and he admits it. This picture of our little friend with a telescope in his hand is one of the first official pictures taken during the arrival of the around-the-world flyers in Boston.

But when the official, snappy rounded in honor of the globe girder, Ted was forced to seek a strategic position on the city's skyscraper. Ted saw everything and while up so high he secured the official weather forecast which says showers Monday night, with Tuesday cooler and partly cloudy.

Lima Girls Like Photographers, Reports Show

"Watch the Birdie." The Lima News staff photographer is finding it unnecessary to say that very often. He has found Lima girls to be excellent camera subjects and not one of them has been frightened by the picture-taking apparatus.

While some of the pictures have been taken by him during the past two weeks, he is not at all certain that the winner of the contest being staged by The Lima News has already entered.

There is yet plenty of opportunity for a good looking girl to get in line for the trip to Tulsa, Okla., as Princess Ohio. There she will play a prominent part in the International Petroleum exposition to be staged in October. She will also enter for the honor of being Queen Patricia.

As the contest closes Sept. 15, the staff photographer is urging that all girls who want their pictures taken call him at once. All pictures are taken at home and appointments can be made thru the Contest Editor at any time.

RABBI DIES AT AGE OF 107 AT CHICAGO

CHICAGO — Rabbi Solomon Miles, 107, Chicago's oldest citizen so far as known, was to be buried here today. He died yesterday in his modest apartment where he had been spiritual adviser to many of his race. He had not been in a synagogue for a number of years. Three years ago he was asked on his birthday that his advanced age he not published for two reasons. "The first, he said, was that one should not boast of anything for which he was not responsible, and the other was 'my wife, Tillie, thinks I'm still young, only about 90 or so.'"

DESERTION CHARGED IN BACOME DIVORCE SUIT

Divorce on grounds of wilful absence is sought in a petition filed in common pleas court Monday by Mrs. Nettie Bacome, against William Bacome. The two were married in Lima 21 years ago, the wife asserts. Bacome drifted away, and has not been in for three years ago. The plaintiff requests to be restored to use of her former name Nettie A. McClain.

FUND TRANSFER

Petition filed in common pleas court Monday by trustees of St. Ignace or Crook requests permission to transfer \$708.18 from the township bridge fund to the township road fund. The petition is filed by J. C. Jones, Sam Smith, and Roy Ensign, trustees.

VIENNA — Patrol wagons of the Vienna police department were commandeered for a picnic of city employees. City officials rode in the wagons in the order of their rank. Meanwhile policemen on duty were forced to take their picnics in jail on foot.

BIRDMEN ARRIVE AT NEW YORK

(Continued from Page One)

BRITISH LAUD AIRMEN

LONDON — (By Associated Press)—The American nation has every reason to feel proud of the skill and endurance of its airmen, says the Times today in commenting on the arrival at Boston of the United States army round-the-world fliers. Paying tribute to the admirable preparations for the flight and the assistance rendered by the United States government and navy, the paper adds:

"Of the wisdom of this there can be no question and American airmanship and the American navy are reaping a well deserved reward. It is no disparagement of the airmen to say that no expedition by other nationalities have been so well backed by some support as theirs, for the glory of their achievement is in no wise diminished thereby."

The Times finds every reason to hope and believe that the last stage of the flight will be successful, a belief that also is warmly expressed by the Westminster Gazette which adds:

"The honor the airmen so richly deserve will be given by their British competitors."

Praising the chivalrous efforts of the American fliers to help the British after Major MacLaren's wreck at Akaba, the paper says: "The triumphs of the American airmen will be all the sweeter because they showed that particular generosity to their unsuccessful rivals."

FLIERS' SCHEDULE

WASHINGTON — (By Associated Press) — Army air scouts are awaiting an opportunity to read the wireless story of the flight around the world written in the mechanical condition of the world's greatest air and its journey. The tale will be told in the course of a month, inspection to which the planes will be subject at Rockwell Field, San Diego, after the first air trip around the earth has been completed.

The machines will be completely disassembled. Every part will be examined, measured, tested, and results of the technical study will be compared with similar records made before the planes started their amazing journey.

Experts expect the comparison to throw a flood of new scientific light upon technical questions of airplane construction. It is expected also to insure that future American built aircraft will be designed in accordance with exact scientific knowledge of the strains and stresses which the machines may be called upon to endure.

The tentative schedule arranged for the squadron when it leaves Washington probably next Wednesday to fill in the gap that will complete the first air circle around the earth will carry it to its ultimate destination via Dayton, Ohio; Chicago; St. Joseph, Mo.; Fort Crook, Neb.; North Platte, Neb.; Cheyenne, Wyo.; Rock Springs, Wyo.; Salt Lake City, Utah; Saltdro, Utah; Reno, Nev.; Sacramento, Calif.; Eugene, Ore.; and thence to Seattle.

The flight completed at Seattle the world's greatest air trip will turn southward again, traveling to Rockwell Field by way of San Francisco, Santa Barbara, Santa Monica to San Diego. The machines will be accompanied by the crew which carried them around the earth on their arrival at Rockwell Field and be given over into the hands of experts for the purpose of making the mechanical study. After this study has been completed, the historic machines will be reassembled for a leisurely flight back to Washington, where they probably will be given over to the Smithsonian Institution to rest in honored idleness among the exhibits denoting American enterprise, assembled at that museum. They probably will be flown back to Washington by their original crews and it is then that the opportunity for ceremonies all along the line across the continent will be afforded.

WALETS TO GREET BIRDMEN

SYOSSET, N. Y. — (By Associated Press)—The Prince of Wales motored to Mitchell Field this afternoon to greet the American world aviators. His presence on the flying field will be unofficial, however, for he will be there not as the British representative, but as Edward Windsor.

Great Congratulations to the Birdmen

Official congratulations to the birdmen will be extended by Sir Esme Howard, the British ambassador. The price, with his secretary, Captain A. F. Lascelles, will join of Field from the James A. Burns home after motoring to Mitchell home, 12 miles distant, where his highness is quartered.

LEGION BACKS DEFENSE DAY

National Move Approved By Members In Ohio

COLUMBUS — (By United Press)

The American Legion of Ohio stands firmly back of the defense day project. At a meeting of the state executive committee here Sunday the national defense act was highly commended and all members of the Ohio Legion were urged to take an active part in observance of the day.

In resolutions the legionnaires marked the defense act as "the marshalling of all resources of citizens in the interest of peace and the maintenance of a large professional army" and added "it is the best interests of the United States to know its resources at all times in the furtherance of peace, dignity and self-respect."

Hugh K. Martin, Columbus, was re-elected adjutant for the sixth time, at yesterday's meeting. Lucien Kahn, of Hamilton, was elected to the national executive committee from Ohio.

HISTORY OF LIFE OF CHRIST DISCOVERED

NAPLES — A history of the life of Christ, supporting the Savior's martyrdom, written in 55 A. D. has been discovered by Commander Della, superintendent of government libraries here, according to a report to the ministry of education.

The discovery is expected to create a sensation throughout the world, as the new book, anti-dating any previously known histories of Christ's life, is said to contain accounts of many hitherto unknown incidents.

"The authenticity of the books (Della also found some new works of Livy) cannot be doubted," the commander said. "The government is investigating and will fully confirm my summary of the findings. At any rate, the books are surely here and nobody will take them away."

Jim Smith, 55, was arrested at 1:15 p. m. Monday after police searched his home at 651 S. Main street and found an eight gallon still, several bottles partly filled with liquor and 25 gallons of mesh. The mesh was destroyed and the liquor and still were taken to police headquarters. Smith is being held pending arraignment.

RECORD VOTE IN MAINE SEEN

Eyes Of Nation Turned On Election There Today

SPIRITED CAMPAIGN WAGED

Victory At Polls Claimed By Both Parties

PORTLAND, Maine — (By Associated Press) — The history of Maine is expected to be cast in today's biennial state election in which the contest for governor, waged largely on the Ku Klux Klan issue, overshadows all other considerations. As a result of the spirited campaign just closed and the fine weather promised for polling day, party leaders expected all records to be broken in numbers voting.

Officers of the Democratic state committee today predicted that William R. Pattangall, former state attorney general and Democratic candidate for governor, would carry off a plurality of from 15,000 to 20,000, in his campaign against the Klan. Pattangall denounced the Klan, pointing to the fact that State Senator Ralph O. Brewster, his Republican opponent, was supported by the Klan in his primary campaign.

Chairman George L. Emery of the Republican state committee on the other hand predicted for Brewster a victory by from 25,000 to 40,000 votes. The Republican candidate in his campaign made no mention of the Klan, but emphasized national issues and his support of President Coolidge.

HEAVY VOTE FORECAST

Leaders of both parties declared that a careful canvass of the state indicated that thousands who never before took an interest in political affairs would appear at the polls today. The largest vote cast previously in Maine was 20,000 in the 1920 gubernatorial election.

U. S. Senator Bert M. Fernald and all the four congressmen from Maine have been renominated by the Republicans. Considerable interest attached to the result of the congressional elections because of possible bearing on national politics.

Recalling the old political proverb, "As Maine goes so goes the country," Democrats everywhere watched the result of today's voting with keen interest. Two years ago when Pattangall was Democratic nominee for governor, he was defeated by Percival P. Baxter, Republican, by a plurality of 28,457 votes in a total vote polled of 178,969.

In 1920 the Republican candidate for governor was elected by a margin of 67,246 and the state gave Harding to president later in the year a plurality of 67,049.

CITY CONTRACTS NEARLY DONE

Street Paving Work Rushed In All Sections

Completion of all city paving and sewer contracts, with the exception of the Jones sewer job, is expected this fall as the result of reports filed with City Manager C. A. Bingham by contractors.

Work on three sewer contracts last Monday night, St. John's-ay, Erie-ay and Fifth-st, was to have started this week, and the paving contracts in various portions of the city are nearing completion with all indications that before snow flies the \$300,000 paving program will be completed.

The Jones sewer job, which is being finished by the Haddock-Kairal Co., Cleveland, requires nearly 12 months to complete. The job was let early last summer and is not expected to be finished until next summer as work is progressing slowly but steadily.

City officials are receiving petitions for improvements of streets and are arranging legislation so that the work can be completed next year as no other contracts are to be let this year.

REV. ROWAND ESCAPES INJURY IN AUTO CRASH

Rev. C. A. Rowand escaped without injury in an automobile accident Sunday afternoon on the Harding highway near Ada, according to an announcement Monday from his home after reports had been circulated that he was seriously injured.

The machine in which Rev. Rowand was riding is said to have been struck by another auto when the first car was enroute to Lima from the Methodist conference at Ada, but the occupants were only slightly bruised. Word at Rev. Rowand's home Monday was to the effect that he was not injured and was in Ada for the closing sessions Monday.

AT HOME, DR. C. E. STALTER, 512 STAINER BLOCK

Mainly About People

Mr. and Mrs. Fred Smith of Cleveland have returned home after spending the week end with C. W. Smith of the Hotel Argonne.

E. A. Jandorf of New York City is a business visitor at the Delsel-Wemmer Co. of this city.

Lewis Solomon of Boston, Mass., and H. E. Hall of Omaha, Neb., are stopping at the Hotel Argonne for a few days while transacting business with local firms.

Mrs. D. M. Haver and daughter Virginia of Cleveland are visiting for two weeks with Mr. and Mrs. Herbert Rudy on W. Elm-st.

City Manager C. A. Bingham approves the recommendation of Monday night he is expected to appear before commission meeting with Mayor Earl C. Moyer with a plea for enactment of zoning legislation.

RUSSIA LOCATES NEW FISHERY

Banks in Arctic Waters Are Found by Accident

ARCHANGEL, Russia — Soviet Russia has made strenuous efforts this summer to develop her sea fisheries as a source of food supply, and in this connection, it was announced recently, new fishing grounds have been discovered off Jugurski Scher in Arctic waters adjacent to Russia. The new fishing banks were located quite by accident.

It was during a cruise of the steamship Malgosa, of 1,500 tons, with Russian sea scientists aboard, who were doing research work for the purpose of studying matters pertaining to the biological, hydrographical and meteorological problems of the Polar regions that great schools of fish were encountered. Further investigations in the same waters, off Jugurski Scher, revealed that the fish made their "homes" there in great numbers. This is said to be the most northerly fishing banks in the world.

There are indications, not only on the Archangel coast, but in Northern Norway as well, that the Russian interests are going in for deep sea fishing on a much larger scale than at any time since the revolution. Formerly the "Russian trade" was a main feature of such Norwegian towns as Vardo and Hammerfest. As far back as the fifteenth century the Pomors (fishermen and traders along the Norwegian coast. Gradually in the eighteenth century the fishing passed into Norwegian hands, the Russians confining their attention to the purchase and shipping of the catches. In the five years ending in 1912, more than 140,000 tons were thus purchased, much of this going to England. With the war and the revolution this trade vanished, but now Russia has begun to buy fishing craft in Norway with which to catch her own fish for the Russian people.

BONIN ISLANDERS FEAR JAPANESE-AMERICAN WAR

TOKYO — Inhabitants of the Bonin Islands, the tiny stretching southward from Japan proper, are uneasy over rumors of trouble between Japan and the United States since the passage of the Japanese exclusion law by the United States Congress, according to reports reaching military authorities in Tokyo.

The Bonin Islanders would be Japan's first line of defense for the home islands in case of a naval war, and the islanders are uneasy about the outcome of the strained situation arising from the new immigration law. Their anxiety, it is reported, has been increased by frequent visits of inspection to the islands by high military and naval officials which have been noted recently.

PLAYER ROLLS 4 FOR 81, OHIO MUSIC CO.

BERLIN — In 81 of Germany, which is somewhat larger than the state of California, there is not a single parking space for automobiles. This fact came to light as a result of an investigation to determine the condition of the motor industry in the country. Police regulations do not permit automobiles to stand in the streets unless attended by the driver, and even then for only a short time. In order to popularize locally driving one's own car a movement has been started in Berlin and some of the other cities to set up automobile parks within the city centers.

AUTO PARKING SPACES IN GERMANY ARE SCARCE

CONSTANTINOPLE — (By Associated Press) — The question of what is to be done with the treasure of the caliph is occupying front page space in all Turkish newspapers. These treasures contain some of the most valuable gems in existence. One group of papers demands that the treasure be sold at international auction, so that the money may become available for much needed purposes of reconstructing the country and for relieving distress among the abjectly poor.

Until 1916 the treasure was kept in the Palace of Topkapu. After the present regime succeeded to power it was brought to the mosque of Achmed Pasha at Ankara. The treasure includes the gems and works of art collected by the sultans and caliphs three centuries. There are necklaces of walnut sized diamonds, medallions of rubies and topaz, chains of pearls of priceless value, diadems and crowns of precious stones, sobriety and cups of gold and silver, awards and scimitars and pistols set with jewels, and the famous saddles of the sultans and princes, which are studded with diamonds and other precious stones.

WARM CAMPAIGN IS ENDED

Coolidge Is Issue in Michigan Voting Tomorrow

STATE PRIMARY IS ON

Battle Is Between Couzens, Tuttle for Senate

DETROIT — (By Associated Press)—President Coolidge will be an issue in the Republican vote for its United States senatorial candidate tomorrow in a statewide primary election.

On one side Federal Judge Arthur J. Tuttle is aligned strongly behind both Coolidge and Dawes. On the other, Senator James Couzens, seeking nomination for the first time (he went to the senate by appointment of Governor Grosbeck) has stated he also favors Coolidge, but he has been attacked during a strenuous campaign because his vote on several measures was registered against the president. His political adversaries also have sought to make capital out of his failure to give positive endorsement to the Republican vice presidential candidate stress being laid on the possibility of the presidential election being thrown into an effort.

An effort to inject the wet and dry issue has been made thru the endorsement by the Anti-Saloon League of Judge Tuttle and an attack by the league on Senator Couzens' wet leanings, although Senator Couzens has declared he favors prohibition enforcement.

On the state ticket seven men are after the Republican gubernatorial nomination with Governor Alex Grosbeck seeking a third term.

PASTORS APPOINTED AT EVANGELICAL MEETING

LANCASTER — The Ohio conference of the Evangelical church closed its meetings here late yesterday with the appointment of pastors. Among the appointments were:

Akron Calvary, W. L. Martin; Akron First, H. B. Masters; Akron Grace, W. P. Maxwell; Akron Madison, W. L. Nauman; Akron North Hill, W. M. Davis; Canton First, L. C. Hoover; Canton Bethany, E. M. Radebaugh; Canton Grace, F. A. Firestone; Canton Gible Avenue, L. C. Hoover; Canton Trinity, H. C. Zachman; Lorain, W. H. Berkner; Youngstown, J. H. Amore.

LIGHT FROST

ST. MARYS — (Special) — A survey since the week-end frost shows: "The pumpkin and pepper plants are the touchstone in the clear." "The light of the moon" is cited as one of the reasons for plant clearance from frost effect.

CONVENTION PENS AT SPRINGFIELD

SPRINGFIELD — Delegates to the annual convention of the state Federation of Labor are here today at the Springfield Hotel.

W. H. Black and D. J. S. president of the Springfield and Labor Assembly, closed.

500 delegates are in attendance at the convention, to last four days.

Program for the opening included an address by James C. Johnson of Springfield, former associate justice of the Ohio supreme court, regarding the workmen's strike law. John W. Cleveland, president of the state, also gave an address.

The formal opening and addresses of the convention and the delegates closed with a chicken dinner. Business sessions continued tomorrow.

Figures Given Out As To LaFollette Strength

48 PER CENT DEMOCRATIC Largest Portion Of Followers Made Up Of Laborers

WASHINGTON — (By Associated Press)—Letters received in response to Senator La Follette's Labor day radio address, a statement issued today by his headquarters, indicate that the independent ticket is drawing strength about evenly from the Republican and Democratic ranks.

Of those who declared they had been affiliated with either of the two old party lines, 51.85 per cent said they were deserting the Republican party to vote for the La Follette-Wheeler ticket, while 48.15 per cent said that heretofore they had thrown their support to the Democrats.

The statement said that of those who gave their occupations, 30.55 per cent were laborers, 22.22 per cent farmers, 18.11 per cent business men and bankers, 11.12 per cent clerks and professional men, 11 per cent commercial travelers and salesmen, with the remainder scattered thru 80 occupations.

The responses from adherents of the third ticket movement, it was said, had come from 17 states with the greatest number from New York, Illinois, Pennsylvania and Ohio.

With a view to perfecting campaign plans in support of the La Follette movement, a group of labor leaders gathered here today for a conference as a forerunner to a series of meetings which are expected to have an important bearing on the campaign.

TEAM PREPARES

ST. MARYS — (Special)—Eight out of 16 men practicing with the high school football squad have been picked for team members by Coach Roy H. Wisecup. Seven of the eight eligibles have been named. They are: Benton Parker, "Rube" Swartz, Carl Wethers, "Ding" Howell, Fred Koch, Vernon Broom, Bill Gross.

WIN PLACE

ST. MARYS — (Special)—Thirteen place in the demonstration contest at the state fair has been awarded Helen Vogel and Anna Yaul, noble-type young women living north of St. Marys. They represented Auglatzco clothing club led by Mrs. Louis Rohrbach. Fifty-eight teams took part in the state fair competition.

CHURCH PROPERTY RETURNED BY MOSCOW

ETCHMIADZIN, Armenia — All the property seized from the Armenian church during the famine of 1920-21, including many thousands of dollars worth of gold and silver chalices, communion cups, icons, crucifixes and candelabra has been returned by the Moscow authorities to the Armenian Catholics and the Armenian church.

The property, which has been deposited in the Cathedral of the Virgin here, fills four huge packing cases. It will be redistributed to the local churches from which it was confiscated. This is the first time in the history of the Soviet that such property has been restored to the churches.

MEYER ESTATE TOTALS \$6,100, REPORT SHOWS

OTTAWA — A value of \$6,100 was placed upon the estate of Tony Meyer, residing southwest of Glenora, upon appointment of Mrs. Tony Meyer and executrix of the estate, in probate court.

Of this amount, \$6,000 is in real estate and \$100 in personal effects. Meyer, in his will gave all his estate to his wife, after debts and expenses attending his last illness and death, were paid.

The will was executed Dec. 2, 1920, and was signed by Tony Meyer and Frank Kruse, neighbors. He died at his home on Aug. 4, following an illness of some months.

Meyer left a large family of children, among whom were S. Meyer, of Columbus Grove; Mrs. Jennie Deck, of Columbus Grove; Harry Meyer, of Continental; Cornelius, of Shelby; Lawrence, of Ottawa; Matthew, Estelle, Helietta and Oscar, all residing on an Ottawa rural route.

12 AUTOS DESTROYED IN FIRE AT CLEVELAND

CLEVELAND — One man was seriously burned, twelve automobiles destroyed, and a liquor still revealed to the police when fire, ignited by a cigarette, swept a garage here Sunday night. The fire next door to the garage was found by policemen who were establishing fire lines in the neighborhood.

Harry Finn, 21, badly burned when four drums of radiator alcohol exploded in the garage, was taken to a hospital.

\$6,000 SOUGHT IN SUITS

Damage Claims Result From Automobile Accident

Two personal injury actions, in which plaintiffs are seeking compensation aggregating \$6,000, were filed in common pleas court Monday, against H. B. Greenemeyer, Harold Greenemeyer, and a third person whose identity is unknown.

Plaintiffs are Mrs. Cora Perrine, 37, of 130 S. Central-av., and Ray Jasper, of 133 E. Second-st. The two are seeking damages for injuries sustained in an automobile crash at Shepard's corners on the Dixie highway, Aug. 17.

Jasper, accompanied by Mrs. Perrine, and his daughter Marie, 6, was coming north on the highway. A Buick car belonging to H. B. Greenemeyer, carrying a gay party on a return trip from Toledo to Piqua was speeding southward.

Plaintiffs allege the driver of the car was going too fast to have control of his machine. The southbound car veered to the west side of the road and crashed into the machine driven by Ray Jasper.

Mrs. Perrine suffered a double fracture of the collar bone, and injuries to her limbs and body. Marie Jasper, and Forest Place, a fourth occupant of the car were also injured.

GASOLINE STATION IS ROBBED SUNDAY NIGHT

Thieves burglarized the Higgins Bros. filling station at Bellefontaine-av. and Kibby-st. about midnight Sunday and made away with a quantity of merchandise valued at \$97.50.

Entrance was gained by breaking a window. The cash box was rifled and yielded nothing, after which a number of tires and other supplies were taken. It is thought they were traveling in an automobile.

Philip McDonald, 731 W. North-st., filed a complaint at police headquarters Sunday to the effect that someone entered his home Saturday night between 8 p. m. and 3 a. m. while the family was away, and took \$1 in cash, a revolver and a flashlight from an upstairs room.

NEW SWITCHBOARD MILLER CITY — A new Kelllogg switchboard of the latest type and improvement has been installed here by the Mutual Telephone Co. Miss Pearl Motter is now an operator with the company.

OHIO MAN RUN OVER BY AUTO AND BUS

CLEVELAND — George Yurick, 35, is dead and two other men were seriously injured by motorists here last night, who did not stop after striking their victims. Yurick was killed when he was struck by an automobile as he left a street car and was run over again by an Akron-bound trolley following the machine.

MILITARY — Warrent received here from Toledo is to the effect Joseph A. Doherty, former Miller City resident, now of Toledo, suffered a broken right arm while climbing an automobile.

The Lima News

AND TIMES-DEMOCRAT

Published every afternoon in The Lima News Building, 121 E. High-st., Lima, O. Entered at the Lima, O. postoffice as second class mail matter.
EARL R. LEACH, Managing Editor.

Back To School

You children of Lima and elsewhere who are returning to school this fall are experiencing the best part of your life, the youth will not realize it until later. Youth is the most glorious period. In old age you will look back to it as a mystic fairyland. And yet it is a very practical fairyland, for youth is training time.

You are going to school for this definite purpose—to train yourself for making a living after you graduate. The kind of living you will make in maturity is largely determined in school days. The foundation of failure or success is almost without exception based on the training the brain gets in school. Study hard and you will be rewarded later.

The world that you will graduate into will be a very different world than one entered by your father when he completed his schooling. Each year the intellect plays a greater part in your daily life. So neglect no opportunity to develop your brains.

You children are the re-inforcements training to take the place of the grown-ups who now run the world's affairs. Whether you will do a better job than father's generation—whether making a living will be difficult work or easy pleasure—these depend on school days. More than 20 millions of children are answering the school bell after vacation. A mighty army. Study hard to become one of its leaders later.

Inviting Death

Here's a beautiful baby, in excellent health. The proud mother exhibits him to visitors. Their instant tendency is to take hold of the baby's fingers. They do not realize danger of transferring germs.

Within a few seconds after baby's fingers have been pawed by grown-ups, his fingers go to his mouth.

This is one of the commonest ways germs of colds and other diseases get into the baby's system.

Lucky for baby, if visitors toy with fingers outdoors. Mother is naturally afraid to offend by cautioning about transfer of germs. If she is wise she will expose his fingers to the sunlight.

Germs die almost instantly in sunlight. And, by the way, one of the best remedies for a sore throat is to open your mouth so the sun will shine into the infected parts.

More disease germs are "caught" by contact with the hands than any other way. Except, possibly, kissing.

The danger is especially acute when there is a cut or a chapped crack in the skin of the hands.

The League Against Hand Shaking is doing excellent work.

Hand shaking, after all, is rather a ridiculous custom. It's a stupid survival of the days when men extended their right hand to instill confidence by showing they carried no weapon.

Disease Danger

The trouble isn't so much that we have too many laws, but that too much time is wasted enforcing the wrong ones. Here's a case. Lima has an ordinance against spitting on sidewalks, in street cars and other public places. Few local regulations

are more important, yet how often is the expectorator arrested?

If you can think of anything that should be safeguarded more than the public's health, trot it forth. The victim of the most terrible contagious diseases can spit all over the walk without much danger of arrest. But just let him get caught buying a flask of whisky or violating parking rules.

Your Work

On a camping trip, Rodger Dolan fished five days for salmon trout—and couldn't even get a strike. He was deep-trotting about 100 feet down. An Indian, bribed with \$5, took Dolan's outfit, leaded the line so it would sink only 75 feet. Then he cut off a minnow tail and tied it with thread in among the hooks of his "wobbler" troll—to make it look like the tail of a shiner.

Pronto!—eighteen salmon trout took the bait in a day.

Dolan's comment. "Well, the Indian ought to be able to catch fish. He can't do anything else."

Specialization is what gets results. A man who holds the world record in running or any other athletics usually can't do anything else. He hasn't time to do anything else. Keeping trained in his specialty busies his body and brain to the limit of action.

So it goes in nearly every pursuit of life. There's an old saying, that we're all fools outside our own businesses.

A few generations ago, when America was sparsely populated and settlers were scattered thru the wilderness, every man had to be more or less of a handy-man or Jack-of-all trades except in cities where he could specialize.

Specialization is an outgrowth of community life. It was discovered, for instance, that one man made better shoes than anyone else in town, and made them faster. Obviously, it was foolish for him to devote his time to anything except shoe making.

Another man could saw boards and drive nails faster. He specialized at building. And so on, until nearly every man became a specialist, trading the products of his toil for things he needed that others could make faster and better than he could.

The tendency toward specialization has increased with the passing of time. We talk about ours being an "age of specialists." And yet, in our increasingly complex civilization, specialization has barely started.

When the lads of today mature to manhood, life will be many times as specialized as now. The boy who is allowed to drift along without any definite idea of what he wants to specialize on later, will strike out into the world for himself under a great handicap.

But a greater handicap lurks in the danger of parents opposing the line of work his instinct gravitates him to—trying to make a natural-born lawyer, for instance, become a doctor.

Politics makes strange bedfellows and strange fellows, but many a dark horse has a bright future.

"Winter lingers in the lap of spring," wrote the other poet, and we write, "Summer loafs in the lap of the kitchen stove."

ABE MARTIN

A sure way to tell a self-made man is to give him a ten-cent cigar, and if he says, "If you don't mind, I'll smoke this Sunday," he's self-made. Mr. Abe Martin, who got a divorce because her husband had a split personality, says she'll go back to him in a minute if he'll send her the good half of the bill he owes her for breakfast.

after will arise promptly at six of the clock.

Breakfasted on a meion, and scrambled heufant. To the postie, there saluted by a caustic note from my banker, which pleased not at all. Knowing it requires strengthening of my line, and a bravo talk will give him

At the shoppe, hard at my stnt. The chill of the changing season and Ohio Power doing nothing whatever about it. So, out to varia up on the taver. Meeting I. D. Cupenter, the station king and Dr. Mosiman, president of Shuffton College. Here comes Judge Kent W. Hughes, walking like he had shot a 76.

The traffic signals working to perfection. A Dunkard got caught between the red and green, and offered to pay Webb Harrison his fine. Albeit, the noble officer waved him on his way. Billy Duffield the banker and his irresistible smile. Bob Ashley, first president of the Lions club.

Women rushing to counters for early autumn wears. Men looking silly, as they find themselves still sporting their straws. Caps multiply. Vests are on duty again. Now and then an overcoat. To night will come the smell of the

furnace, and the first smoke from chimneys.

The Kounly Kounmish has made its request, while the City Kounmish had already done so. The taxpayer will make his in January. Only three-fourths of a million to run the city, and three-fifths of a million for the schools. Not two million and a half, or five percent on present city valuation. No need to complain about Washington and congress. We are stepping on the gas ourselves.

What has become of the old-fashioned fish wagon? You can get pasty by gas wagon from the Rait, and bananas now and then, but fish, no more on the streets. There goes a woman with long hair. Comes the time of year to put the young kiddies in the primary grade, the happiest innocent daddies ever enjoyed.

In the evening, dined a deux, with my wife, on roast beef, browned potatoes and a beet salad, the best I ever did eat. Then dodging traffic, thru the town, meeting few of import, except George Ritter, the cinema prince, and M'seur Asher, the diamond merchant. So, after looking over the posture of affairs, home and to bed.

THE END OF THE TRAIL

LIMA NEWS HEALTH SERVICE

By DR. WILLIAM BRADY

PREVENTIVE DENTISTRY

Remember the old one about the Pullman porter who wanted to brush the doctor's clothing—the doctor thought it wasn't right to stir up the dust and spread germs around, but the porter assured him all do germs, his brush stirred up wouldn't do no harm. Pullman cars will probably be the last stand of the broom and vacuum against the vacuum cleaner. Railway dust, grime and the covered wagon style of bed combine to make tourist travel by automobile more popular every day. George's whiskbroom is much like the toothbrush, an institution which survives and still pays a profit long after it has given its damse. In some communities there are still "post houses" and victims of certain diseases are still subjected to in humane persecution and maltreatment at the hands of the ignorant and superstitious "health authorities." It takes two or three decades, as a rule, for a medical discovery to be completely accepted by the laity. The toothbrush and its complementary array of more or less mysterious delectant or scouring preparations will no doubt remain popular to several years to come.

I've never heard of a potent dentist tell just how foolish should be in their teeth and how often it had to have stuck you that in order to do the thing properly one would have to become a permanent occupant of the dental chair. Another thought which may not have occurred to you is this: Are not the most conscientious users of the toothbrush the dentist's best patrons? And do we not find that people who know nothing of the toothbrush as well as indi-

viduals who have never used it frequently have the finest teeth? Cleanliness (conceded the toothbrush affords it) and the prompt repair of defects of the teeth as soon as these are discovered by the dentist's periodic inspection are the objects of the campaign which is being waged for the preservation of the teeth of the rising generation. The first part of the program is a great waste of time, energy and money, for it is based on an exploded theory. But the second part of the program is the utmost value and importance. Toothbrush or no toothbrush, it is an excellent rule of health to visit one's dentist early and often if the teeth really need cleaning. Let the dentist clean them, for he knows how and has the equipment to do it properly. Even the one who uses the toothbrush intelligently and strictly according to Hoyle, the chances are that you must still visit the dentist periodically to have your teeth properly cleaned. Tartar deposits, of instance, are as adverse to the toothbrush.

The layman is more impressed by such operations as reimplantation of teeth which have been extracted and by transplantation of teeth from one person to another—operations which American dentists do with conspicuous success. But more impressive than these spectacular operations to my mind, is the great routine humdrum every day office work of the dentist, such as the operation of "scaling the roots," and thereby saving the teeth which are doomed to drop out from pyorrhea, the discovery and painless filling of minute cavities before the carious process has seriously damaged the tooth structure, and the many ingenious procedures the modern dentist summons to his aid in correcting malformations and irregularities of the teeth.

In some schools, where the

COULDN'T RAISE HAND HE WAS SO HELPLESS

But Tanlac Relieved Him of His Troubles, Declares John Coakley.

"After all Tanlac has done for me I will sing its praise the longest day I live," is the grateful statement of John Coakley, 515 Spies Ave., Monroeville, Mich., a resident of this place for 50 years.

"When I began taking Tanlac I was helpless from rheumatism. I couldn't raise either hand and had to have help to put on my clothes and get up when down. I couldn't eat or sleep and my wife and children were downhearted thinking my time was about over."

"My wife wrote a Miss Miller in Milwaukee about my condition and the reply came back, 'Give him Tanlac.' So I began taking Tanlac and after my fifth bottle I was able to get back to my work. And in seven months my weight increased from 125 to 165 lbs. and my troubles were in the past. I am feeling fine now and I want the world to know that Tanlac is what did it. Anyone wishing to verify this statement, just call on or write John Coakley, 515 Spies Ave., Monroeville, Mich."

Tanlac is for sale by all good

druggists. Accept no substitute. Over 40 million bottles sold. Tanlac Vegetable Pills for constipation, made and recommended by the manufacturers of Tanlac.

JUST FOLKS

BY EDGAR A. GUEST

GRIEF
I could not utter it last night
Because the voice was dumb.
But now alone I try to write
The words which would not come.
When all the bitter tears are dried
Sometime when you're alone,
You'll find a calm to those denied
Who never grief have known.

know the hurt is keen today,
I know the loss is great,
But what if you should go away
With no one there to wait?
And oh how lonely heaven would be
If all you loved were here
And there was none you longed to see
To welcome you, my dear?

If God had spared you every blow
Which comes to us on earth,
Had shielded you from every woe
And filled your years with mirth
And then at last He bade you leave
Your place above to find?
Thro'out eternity you'd grieve
For those you'd left behind.

Oh you have had a lovely child
And you have lost a son,
But soon you shall be reconciled
When life's brief time is done.
For heaven is made of those we love,
The beautiful and true,
And God has taken him above
To build a heaven for you.

LIMA TAKES O. I. LEAGUE LEAD---BREMEN DEFEATS CELLA

WESTBAY ALLOWS THREE HITS; RAIN STOPS TWO GAMES

Lima Independents went into first place Sunday afternoon with a 4-1 victory over Angola, Indiana, before a crowd of several thousand persons thrilled by the masterful work of "Big" Dave Westbay, who held the former team's leaders to three lone hits in the nine innings. Ed Standish, Angola pitching ace, went to the showers on innings after Lima had counted four runs. Kats red him and held Halloran's team to four scattered hits in nine innings.

Lima Police Win Over Dayton

Lima police team continued their winning streak Sunday afternoon at Murphy-st field at the expense of Dayton police to a 9-1 score in an erratic game due to the slippery field soaked by a steady drizzle of hours.

Jack Duff, police hurler of no run, no hit fame, again placed his name among the top of premier moundmen by holding the highly touted Dayton "coppers" to three hits, one of them a home run.

Lima scored in the game in the first inning with heavy hitting aided by errors which netted five runs. Four other runs were counted while the visitors tallied one in the sixth inning on a home run by Clark, the pitcher, who placed his weight against one of Duff's offerings and knocked it out of the lot.

Police players wind up their season here next Saturday afternoon with the B. and O. at Murphy-st field, according to Manager Kipker.

Lima and correctly Lima police stand as champions so far as baseball is concerned of the whole state of Ohio. They have thrown out a defy to any other team made up exclusively of guardians of the peace, and hope that Cleveland, Cincinnati, Columbus or any other city believing that they have a ball team, come out of their peaceful holes and take their medicine like obedient disciplinarians.

The Dayton police team were mowed down as wheat in front of a self-binder. "Red" Sloan, noted as an ex-Philadelphia pitcher did last as far as the third inning, but that was far enough. His best efforts were about as successful as his old team mates have in a look in for the National league pennant.

It was hoped that from the very start and resulted in a 9-1 score. For Lima, of course, The visitors did get a run, by virtue of the ball being lost under the fence. Lucky ball, naughty fence.

And it all happened thru the masterly flinging of Duff. This flinging has been going on among the best in Lima, pitching over Pittsburgh, where anybody been studying the flinging has for the past several gloomier than that of an account of the best pitcher team yesterday and the lights against the visitors twice, 4-1.

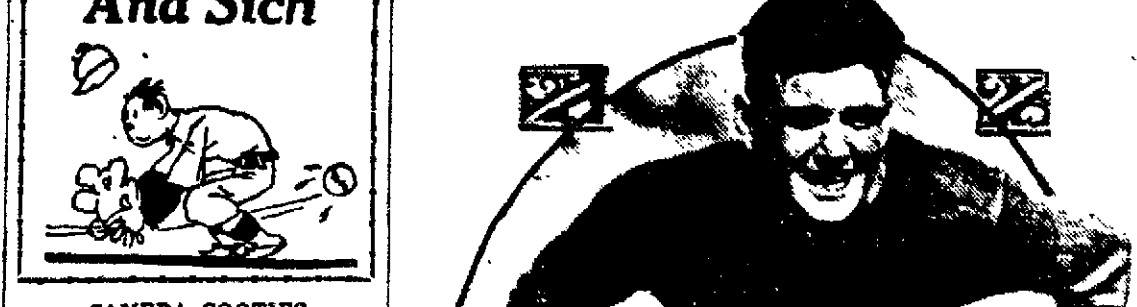

The Rocky City charges mean in their stubborn loyalty in the fight for home National circuit.

ADVISORS: This relegated to the section won and lost against losing the first encounter in coming back strong to win the 15-4. The Braves tested yesterday and are scheduled to play today. These two playing a bitter scrap to win the cellar championship.

CAMERA COOTIES

SOUTHAMPTON, L. I.—It takes all sorts of fancy debris to make a tasty dish of hash and the exact number of assorted nuts required to populate one so-called civilized world is bigger than the combined batting averages of Pop Anson and Ty Cobb.

No one probably ever will be able to unsnarl mystery of high powered business executive who can't give Morgan or Rockefeller more than three minutes of his time at the most, yet will stand for hours before drug store window watching pale, thin anemic demonstrators. Dr. Bunkum's health suspenders.

Some of country's most inquisitive minds find themselves completely stymied trying to unearth one sound, presentable reason why people with obvious intelligence and normal pituitary glands will spend the worst hours of their lives collecting autographs or visiting gold fish trainers and other headline hogs.

Another strata of national imbecility that warrants official observation is made up of gibbering beetles who carry away stone columns from historic graveyards as souvenirs and pilfer strands of hangman's noose to keep fashionable murder fresh in demented brain cells.

But the three-star special in the bughouse sweepstakes, guaranteed to center in a demoniacal first by seven insane lengths, or your straightjacket back, is the amateur kodak fiend.

This incurable plague abounds in large and endless numbers at training camps of fighters and is invariably accompanied by an accomplice of the neither sex who takes turn about in posing with the thick-cured gladiators.

Wills, who is as easy to get along with as the family mattress, has posed for a million camera flashes and in every guise from a Scandinavian squash to Abie's Irish Rose.

The current diet is furnished in two colors by Wills and Firpo. In the middle of a round, whether it be of drinks or right crosses, the field will lift his pulsating voice and plead, "Hold that pose for just a second, please!"

Delphos Has New Grid Team

DELPHOS — Fall weather, which smacks of the gridiron action, has influenced the sons of Delphos to form a football team and has organized under the name of "The Delphos Mercantile," according to "Doc" L. A. Metcalfe, of this city, manager of the team.

At a meeting held Saturday, W. K. Reid was elected corresponding secretary and will schedule all games.

Metcalfe stated that 15 men had reported and were ready to don the mole-skins at the first call to scrimmage.

In the past, football teams of Delphos have failed generally to come up to the standard that will be set by the eleven experienced men that Metcalfe will put on the gridiron this season, the latter forecasted.

Most of the men are veterans with the pigskin, while new recruits are being added to the list. According to Reid, no games have yet been scheduled, but it is the intention of the management here to meet Lima, Celina, St. Marys, Paulding, Ottawa and other towns in the vicinity.

Metcalfe stated that no definite date, as yet, had been set for the first work out. Equipment will soon arrive, and the chance for clinching a berth on the local eleven will be open to any man capable of making good.

Try Hard To Stop Fight

NEW YORK — New Jersey organizations which last week sent to Governor Silzer a protest against the Firpo-Wills fight, will seek a court order to halt the bout, it is stated. Application for the order will be made Monday or Tuesday.

Bernard H. Sandler, counsel for Canon William S. Chase, who instituted deportation proceedings against Luis Angel Firpo, said all evidence obtained by Canon Chase would be turned over to the New Jersey organizations. Included in this evidence are several cablegrams alleged to have been sent by Firpo to Miss Blanca Lourdes Picart, who arrived here in the same ship with him from the Argentine but who was barred by the immigration authorities.

The messages were addressed to Miss Picart in Havana and bore dates of June and July, 1923. Some of them were as follows:

"Arrived today. Glad about your recovery. Sending more details. Embrace.

"Infinite sadness for your illness. Am trying to get 50 miles from New York. Any inconvenience you should have, inform me and I will remedy it. Send everything same address. Cable me condition of your health and address.

These messages were signed "Angel."

Other messages made public by Mr. Sandler were signed "Nita." The sender, according to Mr. Sandler was Nita Picart, Firpo's former landlady, who turned the messages over to Sandler.

"Sending you money for coming here to pass your vacation with us," read one of the messages. "All my family to have you as guest."

NEW YORK (By United Press) — Luis Angel Firpo and Harry Wills, aspirants for the world's heavyweight championship, who are to meet Thursday night in Tex Rickard's Jersey City Arena, pulled up in their training today.

Wills knocked off work early at the Southampton training camp and prepared to move back to his Harlem apartment where he will spend the rest of the time doing as he pleases.

Wills will do no more boxing, trying to keep himself on the first edge he has attained by six weeks of training with light exercises.

Firpo will continue to work for two days. He intends to box today and tomorrow in Madison Square Garden and will then go into seclusion in his Washington Heights apartment.

The South American is not running the risk of going stale that his opponent faces. He hasn't worked as long or as hard as Wills.

Wills remained the favorite in the betting today at about 7 to 5. Firpo has a lot of supporters.

—to build up Weight!

ANY WOMAN, any man, can now have a well-developed face and form. The whole, single secret of a well-developed form is in the number of blood-cells in your body. You can now forget all the theoretical talk about diet, exercise, fat treatments, food-fats and fat-foods. Nothing is of any use, after all, except blood-cells! Thin, run-down men and women, with bony necks, sunken cheeks, bony shoulders—all these are suffering from one thing—too few blood-cells. Science has proved that S.S.S. helps to make the rich red-blood-cells, which you need. Your blood is starving for these new blood-cells! Give your blood the blood-cells it needs—take S.S.S., the great scientific blood-cell maker. S.S.S. has done marvels, too, in making beautiful complexions, clearing the skin, making lips rosy red, the cheeks full and plump—because it rid the blood of impurities which cause pimples, blackheads, acne, blotches, eczema, tetter, rash and rheumatism, too. As the medicinal ingredients of S.S.S. are purely vegetable, it may be taken with perfect safety. This is why S.S.S., since 1896, has meant to thousands of underweight men and women a plus in their strength. Start taking S.S.S. today and your great problem, that of your personal appearance, can be solved.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.
